Personal and Academic Information

Personal Information:

Date of Birth: 23 July 1979.

Place of Birth: Zanjan – Iran.

Citizenship: Iranian.

Marital Status: Married.

Academic Positions:

Department of Mathematics, University of Zanjan: Associate Professor (Since November 2015).

Department of Mathematics, University of Zanjan: Assistant Professor (January 2011 – November 2015).

Administrative Positions:

Department of Mathematics, University of Zanjan: Chief of Department (November 2015 – December 2017).

Address:

Department of Mathematics (Room B3)

University of Zanjan
 University Blvd., 45371-38791, Zanjan
 Iran

Contact Information:

Phone (Office): +98 24 33054035
 Fax (Office): +98 24 32283203
 Telegram Messenger ID: @mmhassany
 Personal Page on Instagram: @mmhassany
 E-mail: mehdi.hassani@znu.ac.ir
 Homepage: http://www.znu.ac.ir/members/hassani_mehdi

Academic Degrees Held:

- Ph.D. of Mathematics, 2010, Cotutelle (joint) student:
 - ▶ Institute for Advanced Studies in Basic Sciences (Gavazang–Zanjan–Iran), Supervisor: Professor Mehrdad M. Shahshahani, Advisor: Professor Rashid Zaare-Nahandi.
 - ▶ Université Bordeaux (Talence–Bordeaux–France), Supervisor: Professor Jean-Marc Deshouillers.
- M.Sc. of Mathematics, 2005
 Institute for Advanced Studies in Basic Sciences (Gavazang–Zanjan–Iran), Supervisor: Professor Jamal Roojin.
- B.Sc. of Mathematics, 2002
 Shahid Rajaei Teacher Training University (Lavizan–Tehran–Iran).

Fields of Interest (with related Mathematics Subject Classification code):

- Primary:
 Elementary, Analytic and Probabilistic Number Theory: 11Axx, 11Bxx, 11Kxx, 11Lxx, 11Mxx, 11Nxx.
- Secondary:
 Sequences and series: 40Axx, Inequalities: 26Dxx, Approximation and expansions: 41Axx, Special functions: 33Bxx, 33Cxx, 33Exx, Combinatorics: 05Axx, History and biography: 01Axx, Mathematics education: 97Axx.

Language Skills:

Torkish (Azari) and Persian (Farsi): native language.
 English: basics–medium.
 Arabic and French: elementary.

Awards and Honours:

- (1) Specimen professor (educational and research activities) of the Faculty of Sciences in University of Zanjan, 2014.
 - (2) Selected member of the national institute of Iranian elites (bonyad-e melli-e nokhbegan) in Zanjan, 2011.
 - (3) I have an Erdős number of 2 (Erdős–Deshouillers–Hassani).
 - (4) “Co-tutelle” scholarship for Ph.D. studies in Université Bordeaux (Talence–Bordeaux–France) offered by “*Service Culturel de l’Ambassade de France en Iran*”, 2007-2009.
 - (5) Award of Dr. Prof. Manouchehr VESAL for the selected paper “Some New Inequalities Between Important Means and Applications to Ky Fan Types Inequalities (with J. Rooïn)”, in 14th Seminar on Mathematical Analysis and its Applications, 4-5 February 2004, University of Science and Technology, Tehran, Iran.
-

List of Publications

Theses. ►

Ph.D. Thesis:¹ On the distribution of the values of arithmetical functions, Institute for Advanced Studies in Basic Sciences (Zanjan–Iran) & Université Bordeaux (Bordeaux–France), 8 December 2010. [Number Theory](#)

M.Sc. Thesis: Approximation of prime number distribution functions and inequalities involving primes, Only thesis with full rank (1994–now) in Department of Mathematics in Institute for Advanced Studies in Basic Sciences, July 2005. [Number Theory](#)

Book Chapters. ►

- (1) Enumeration by e. *Modern Discrete Mathematics and Analysis: With Applications in Cryptography, Information Systems, and Modelling*, Themistocles M. Rassias and Nicholas J. Daras (Eds.), Springer, to appear. [Graph Theory - Enumeration](#)
- (2) On the imaginary part of the non-trivial zeros of the Riemann zeta function. *Contributions in Mathematics and Engineering* (In Honor of Constantin Caratheodory), 313–321, Themistocles M. Rassias and Panos M. Pardalos (Eds.), Springer, Switzerland, 2016. [Number Theory](#)
- (3) Geometric patters in uniform distribution of zeros of the Riemann zeta function. *Mathematics Without Boundaries: Surveys in Pure Mathematics*, 245–258, Themistocles M. Rassias and Panos M. Pardalos (Eds.), Springer, New York, 2014. [Number Theory : MR3330703](#)

¹Available on-line at http://ori-oai.u-bordeaux1.fr/pdf/2010/HASSANI_MEHDI_2010.pdf

- (4) Explicit bounds concerning non-trivial zeros of the Riemann Zeta function. *Analytic Number Theory, Approximation Theory, and Special Functions* (In Honor of Hari M. Srivastava), 69–77, Gradimir V. Milovanovic, Michael Th. Rassias (Eds.), Springer, New York, 2014.

[Number Theory : MR3329232](#)

Papers. ►

Selected Research Papers:²

- (1) A remark on the means of the number of divisors, *Bulletin of the Iranian Mathematical Society*, **42** (2016), No. 6, 1315–1330. [Number Theory](#)
- (2) Remarks on the number of prime divisors of integers, *Mathematical Inequalities & Applications*, **16** (2013), No. 3, 843–849. [Number Theory : MR3134764](#)
- (3) Uniform distribution modulo one of some sequences concerning the Euler function, *Revista de la Unión Matemática Argentina*, **54** (2013), No. 1, 55–68. [Number Theory : MR3114615](#)
- (4) On the ratio of the arithmetic and geometric means of the prime numbers and the number e , *International Journal of Number Theory*, **9** (2013), No. 6, 1593–1603. [Number Theory : MR3103906](#)
- (5) Uniform distribution of sequences involving divisor function, *Mathematical Communications*, **18** (2013), No. 1, 11–17. [Number Theory : MR3085785](#)
- (6) A note on the distribution function of $\varphi(p-1)/(p-1)$ (with Jean-Marc Deshouillers), *Journal of the Australian Mathematical Society*, **93** (2012), No. 1–2, 77–83. [Number Theory : MR3061995](#)
- (7) On a function associated with the generalized Euler constant for an arithmetic progression, *Journal of Mathematical Inequalities*, **6** (2012), No. 2, 249–252. [Number Theory : MR2977784](#)
- (8) Factorization of factorials and a result of Hardy and Ramanujan, *Mathematical Inequalities & Applications*, **15** (2012), No. 2, 403–407. [Number Theory : MR2962243](#)
- (9) On the distribution of a linear sequence associated to sum of divisors evaluated at polynomial arguments, *Applicable Analysis and Discrete Mathematics*, **6** (2012), No. 1, 106–113. [Number Theory : MR2952607](#)
- (10) On an inequality of Ramanujan concerning prime counting function, *The Ramanujan Journal*, **28** (2012) No. 3, 435–442. [Number Theory : MR2950516](#)

²Indexed at least in one of the following databases:

- ISI Alerting Service
- JCR (Thomson-Reuters' Journal Citation Report)
- SCIE (Science Citation Index-Expanded)

- (11) Distribution modulo 1 of a linear sequence associated to a multiplicative function evaluated at polynomial arguments (with Jean-Marc Deshouillers), *Science China Mathematics*, **53** (2010), No. 9, 2203–2206. [Number Theory : MR2718821](#)
- (12) A remark on a sum involving the prime counting function (with Hossein Moshtagh), *Applicable Analysis and Discrete Mathematics*, **2** (2008), No. 1, 51–55. [Number Theory : MR2396727](#)
- (13) Some New Inequalities Between Important Means and Applications to Ky Fan - type inequalities (with J. Roojin), *Mathematical Inequalities & Applications*, **10** (2007), No. 3, 517–527. [Analysis - Inequalities : MR2339545](#)

Other Research Papers:

- (1) Asymptotic expansions for the average of the generalized omega function, *Integers*, to appear. [Number Theory](#)
- (2) A remark on the number of distinct prime divisors of integers, *Tamkang Journal of Mathematics*, Vol. 48 (2017) 13–15. [Number Theory](#)
- (3) Restricted factorial and a remark on the reduced residue classes, *Appl. Math. E-Notes*, Vol. 16 (2016), 244–250. [Number Theory](#)
- (4) On the difference of the number-theoretic omega functions, *Journal of Combinatorics and Number Theory*, Vol. 8 (2016), no. 2, 165–178. [Number Theory](#)
- (5) Explicit approximation of the sums over the imaginary part of the non-trivial zeros of the Riemann zeta function, *Appl. Math. E-Notes*, Vol. 16 (2016), 109–116. [Number Theory](#)
- (6) Sharp bounds for the constant e (with Anthony Sofo), *Vietnam Journal of Mathematics*, Vol. 43 (2015), no. 3, 629–633. [Analysis - Inequalities : MR3386067](#)
- (7) On a sequence related to the coprime integers, *Sahand Communications in Mathematical Analysis (SCMA)*, Vol. 1, No. 2 (2014), 31–37. [Number Theory](#)
- (8) On the arithmetic-geometric means of positive integers and the number e , *Appl. Math. E-Notes*, Vol. 14 (2014), 250–255. [Number Theory : MR3324424](#)
- (9) Identities for the volume of the unit hyperspheres (with Anthony Sofo), *Journal of Inequalities and Special Functions*, Vol. 5, Issue 3 (2014), 28–35. [Analysis - Special functions : MR3268379](#)
- (10) On the Arithmetic–Geometric mean inequality, *Tamkang Journal of Mathematics*, Vol. 44 (2013) 453–456. [Analysis - Inequalities : MR3153080](#)
- (11) Generalizations of an inequality of Ramanujan concerning prime counting function, *Appl. Math. E-Notes*, Vol. 13 (2013) 148–154. [Number Theory : MR3141823](#)
- (12) Quadratic harmonic number sums (with Anthony Sofo), *Appl. Math. E-Notes*, Vol. 12 (2012) 110–117. [Number Theory : MR2992944](#)

- (13) On a sum related by non-trivial zeros of the Riemann zeta function, *Appl. Math. E-Notes*, Vol. 12 (2012) 1–4. [Number Theory : MR2912505](#)
- (14) On a function related by prime numbers in arithmetic progressions (with Hossein Moshtagh), *Octagon Mathematical Magazine*, Vol. 18, No. 2, October 2010, Article 2. [Number Theory](#)
- (15) Counting primes in the quadratic intervals, *Appl. Math. E-Notes*, Vol.9 (2009), 297–299. [Number Theory : MR2566323](#)
- (16) Inequalities on the Lambert W Function and Hyperpower Function (with Abdolhossein Hoorfar), *Journal of Inequalities in Pure and Applied Mathematics (JIPAM)*, Volume 9, Issue 2, Article 51, 2008. [Analysis - Special functions : MR2417333](#)
- (17) On a Result of Hardy and Ramanujan (with M. Avalin Charsooghi, Y. Azizi, L. Mola-Zadeh Bidokhti), *Sarajevo J. Math.*, Vol.4 (17) (2008), 147–153. [Number Theory : MR2483840](#)
- (18) Identities by L-Summing Method (II), *International J. Math. Combin.*, Vol.2 (2008), 78–86. [Computer Science : MR2435819](#)
- (19) A remark on the Mandl's inequality, *Octagon Mathematical Magazine*, Vol. 15 (2007), no.2, pp. 567-572. [Number Theory](#)
- (20) Approximation of the Dilogarithm Function, *Journal of Inequalities in Pure and Applied Mathematics (JIPAM)*, Volume 8, Issue 1, Article 25, 2007. [Analysis - Special functions : MR2295719](#)
- (21) Identities by L-Summing Method, *International Journal of Mathematics and Computer Science (IJMCS)*, Vol. 1, no. 2, 165–172, 2006. [Computer Science : MR2233281](#)
- (22) Lattice Points and Multiplication Tables, *Int. J. Contemp. Math. Sci.*, Vol. 1, 2006, no. 1, 1–2. [Number Theory : MR2288672](#)
- (23) Wilson's Theorem for Finite Fields, *Univ. Beograd, Publ. Elektrotehn. Fak., Ser. Mat.* **17** (2006), 110–111. [Algebra - Finite Fields : MR2241550](#)
- (24) Approximation of $\pi(x)$ by $\Psi(x)$, *Journal of Inequalities in Pure and Applied Mathematics (JIPAM)*, Volume 7, Issue 1, Article 7, 2006. [Number Theory : MR2217170](#)
- (25) An Extension of ABC -Theorem (with M. Bayat and H. Teimoori), *Scientia Magna*, Vol. 1, No. 2 (2005), 81–88. [Number Theory : MR2282837](#)
- (26) Equations and Inequalities Involving $v_p(n!)$, *Journal of Inequalities in Pure and Applied Mathematics (JIPAM)*, Volume 6, Issue 2, Article 29, 2005. [Number Theory : MR2132919](#)
- (27) Cycles in graphs and derangements, *Math. Gaz.* **88** (March 2004), 123–126. [Graph Theory - Enumeration](#)
- (28) Derangements and Applications, *Journal of Integer Sequences (JIS)*, Volume 6, Issue 1, Article 03.1.2, 2003. [Graph Theory - Enumeration : MR1971432](#)

Other International Publications:

- (1) Taxi!, (with Terence Mills), *VINCULUM*, Vol. 52, No. 1 (2015), Page 20. [Number Theory](#)
- (2) Pondering Portrait, *MAA FOCUS*, January 2009, Page 15. [Mathematics Education](#)
- (3) Problem 80, *Univ. Beograd. Publ. Elektrotehn. Fak. Ser. Mat.* **18** (2007), Page 84. [Geometry](#)
- (4) Proof Without Words: Extrema of the Function $a \cos t + b \sin t$, (with M. Bayat and H. Teimoori), *Mathematical Magazine*, **77**, (4) (2004), Page 259. [Calculus](#)

Other Papers in Persian:

- (1) The recent history of Mathematics of Iran, *Culture and Thought of Mathematics* (Persian), to appear.
- (2) Concise history of number theory of Iran, *Journal of Mathematics and Society* (Persian), Vol. 2 (2017), No. 4, 51–57.
- (3) Empty place of the Napier number in high-school books (with A. Ahmadi), *Journal of Mathematics and Society* (Persian), Vol. 1 (2013), No. 3, 13–23.
- (4) Analytic Number Theory, *Newsletter of Iranian Mathematical Society*, Vol. 35 (2013), No. 3, 1–4.
- (5) What is the probability that two random integers are coprime?, *Bi-Karan*[‡], No.1 (2012).
- (6) Constructible Regular Polygons, *Riyaziyate Puya*[‡], No.9 (2006).
- (7) The Greatest Known Primes, *Riyaziyate Puya*, No.6 (2005).
- (8) Proof Without Words (with M. Bayat and H. Teimoori), *Riyaziyate Puya*, No.5 (2005).
- (9) Taxi Numbers, *Riyaziyate Puya*, No.5 (2005).
- (10) Elementary Education of Maple Software, *Riyaziyate Puya*, No.5 (2005).
- (11) History of Prime Numbers Distribution, *Negashte*[†], No.10 (2005).
- (12) Some Wonders in Multiplication Table (II), *Riyaziyate Puya*, No.5 (2005).
- (13) Some Wonders in Multiplication Table (I), *Riyaziyate Puya*, No.4 (2004).
- (14) Riemann Hypothesis for High School Students, *Riyaziyate Puya*, No.3 (2004).
- (15) The Mathematical Model of the Cassette Type, *Negashte*, No.7 (2000).
- (16) Proof Without Words, *Negashte*, No.7 (2000).
- (17) Multiplication Table, *Negashte*, No.6 (1999).
- (18) Dirichlet Function, *Negashte*, No.5 (1998).
- (19) Rational and Irrational Numbers (with M. Bayat), *Proceeding of the Third Annual Iranian Mathematics Education Conference*, Kerman-Iran, (1998).

[‡] Mathematical Journal of Farzaneghan Exceptional Talent Center, Zanjan.

International Conference Papers and Talks:

- (1) Beyond the Rational (with Terence Mills), The MAV 52nd Annual Conference Proceedings “*Back to the Future*”, (2015) 54–60,

National Conference Papers and Talks:

- (1) On a function related to the primes counting function, The 3rd Seminar on Operator Theory and its Applications, 8-9th March 2017, Ferdowsi University of Mashhad, Mashhad, Iran.
- (2) A remark on a sum concerning the prime counting function, (with M. Nasiri Zare and M. R. Esfandiari), The 47th Annual Iranian Mathematics Conference, 28-31 August 2016, Kharazmi University, Karaj, Iran.
- (3) On the geometric mean of the sum divisors function, (with M. R. Esfandiari), The 47th Annual Iranian Mathematics Conference, 28-31 August 2016, Kharazmi University, Karaj, Iran.
- (4) Uniform distribution of number theoretic functions, The 4th Seminar on Functional Analysis and its Applications, 2-3rd March 2016, Ferdowsi University of Mashhad, Mashhad, Iran.
- (5) On the powers of a square matrix of order two and Pell’s equation, The 8th Seminar on Linear Algebra and its Applications, 13-14 May 2015, University of Kurdistan, Sanandaj, Iran.
- (6) Some remarks on a determinant related to the prime counting function, The 8th Seminar on Linear Algebra and its Applications, 13-14 May 2015, University of Kurdistan, Sanandaj, Iran.
- (7) A visual study of Weyl sums over nontrivial zeros of the Riemann zeta function, The First Conference on Computational Group Theory, Computational Number Theory and Applications, 17-19 December 2014, University of Kashan, Kashan, Iran.
- (8) Zeros of the Riemann zeta function and explicit approximations of the prime numbers, The First Conference on Computational Group Theory, Computational Number Theory and Applications, 17-19 December 2014, University of Kashan, Kashan, Iran.
- (9) Explicit sharp bounds for primes counting function, The 21th Seminar on Mathematical Analysis and its Applications, 26-27 November 2014, Islamic Azad University, Hamedan, Iran.
- (10) Why Legendre made a wrong guess about the primes counting function?, The 21th Seminar on Mathematical Analysis and its Applications, 26-27 November 2014, Islamic Azad University, Hamedan, Iran.
- (11) Some beauties of the non-real zeros of the Riemann zeta function, The 45th Annual Iranian Mathematics Conference, 26-29 August 2014, University of Semnan, Semnan, Iran.
- (12) Optimal design of channel sections: a mathematical approach, The 45th Annual Iranian Mathematics Conference, 26-29 August 2014, University of Semnan, Semnan, Iran.

- (13) Smith's determinant over multiplicative functions, The 7th Seminar on Linear Algebra and its Applications, 26-27th February 2014, Ferdowsi University of Mashhad, Mashhad, Iran.
- (14) Two problems in analytic number theory with same solutions, The 43rd Annual Iranian Mathematics Conference, 27-30 August 2012, University of Tabriz, Tabriz, Iran.
- (15) Explicit bounds for sums over non-trivial zeros of the Riemann zeta function evaluated at differentiable functions, 20nd Seminar on Mathematical Analysis and its Applications, 9-11 July 2012, University of Maragheh, Maragheh, Iran.
- (16) Analytic tools and methods for studying distribution of primes in arithmetical progressions, 20nd Seminar on Mathematical Analysis and its Applications, 9-11 July 2012, University of Maragheh, Maragheh, Iran.
- (17) Symmetric expressions of non-zero elements of finite fields, 22nd Iranian Algebra Seminar, 31 Jan - 2 Feb, 2012, Sabzevar Teacher Training University, Iran.
- (18) Three dimensional geometric aspect of Weyl sums, 42nd Annual Iranian Mathematics Conference, 5-8 September 2011, Vali-e-Asr University of Rafsanjan, Iran.
- (19) Approximation of the Growth of a Number Theoretic Determinant, 6th Seminar on Linear Algebra and its Applications, 8-9 June 2011, Arak University, Arak, Iran.
- (20) On the Decomposition of $n!$ into Prime Numbers, 18th Seminar on Mathematical Analysis and its Applications, April 15-16, 2009, TMU, Iran.
- (21) Machinery of Rosser-Schoenfeld Method for Explicit Approximating of Primers, 16th Seminar on Mathematical Analysis and its Applications, February 4-5, 2007, Ferdowsi University, Mashhad, Iran.
- (22) Counting and Computing by e , 35th Annual Iranian Mathematics Conference, January 26-January 29, 2005, Shahid Chamran University, Ahwaz, Iran.
- (23) Some New Inequalities Between Important Means and Applications to Ky Fan Types Inequalities (with J. Roojin), 14th Seminar on Mathematical Analysis and its Applications, February 4-5, 2004, Iran University of Science and Technology, Tehran, Iran.
- (24) Derangements, The Fourth Student Seminar on Mathematics, March 16-18, 2002, Shiraz University, Shiraz, Iran.
- (25) What is the Probability That GCD of Two Positive Integers is h ? The First Student Seminar of Al-Zahra Teacher Training Center, September 4-5, 2000, Zanjan, Iran.
- (26) Number e and Graphs, The Second Student Seminar on Mathematics, March 29-31, 1999, Sharif University of Technology, Tehran, Iran.

Research Reports. ►

- (1) On the ratio of the arithmetic and geometric means of some sequences (in Persian), Supported by a grant of the University of Zanjan (research project number 9247), 2013.

- (2) Kloosterman sums and studying the problem of multiplicative inverse in modular arithmetic (in Persian), Supported by a grant of the University of Zanjan (research project number 9347), to appear.

Classroom Notes. ►

- (1) Number Theory, Vol. 1: Fundamental Concepts (in Persian).
- (2) Collection of exam problems and solutions (in Persian).
- (3) Complement of Calculus: a collection of highly motivated problems and solutions (in Persian).
- (4) Introduction to the theory of distribution of prime numbers in arithmetic progressions: Theorems of Dirichlet and Linnik (in Persian).

Professional Service

Editorial services:

- (1) Editorial board of *Newsletter of the Iranian Mathematical Society* (September 2012 - September 2015).

Scientific and organizing committee:

- (1) Scientific committee: Mathematics House of Zanjan.
- (2) Scientific and organizing committee, and also an instructor of the WAMS-CIMPA Summer School: Topics in Analytic and Transcendental Number Theory, 1-13 July 2017, Institute for Advanced Studies in Basic Sciences (IASBS), Zanjan, Iran.
- (3) Organizing committee: The 5th Seminar on Functional Analysis and its Applications, 12-13 July 2017, Department of Mathematics, University of Zanjan, Zanjan, Iran.

Participation in Mathematical Activities

International:

- (1) Explicit Methods in Number Theory (in honour of Henri Cohen), Bordeaux, France - October 2007, Monday 15th - Friday 19th.
- (2) CIMPA-UNESCO-LEBANON, Summer School: Algebraic Geometry and Arithmetic of Curves, Center for Advanced Mathematical Sciences (CAMS), American University of Beirut, Beirut, Lebanon, July 5-16, 2004.

National:

- (1) 36th Iranian Mathematical Undergraduate Tournament (as team supervisor), 15-18 May 2012, Institute for Advanced Studies in Basic Sciences, Zanjan, Iran.
- (2) 35th Iranian Mathematical Undergraduate Tournament (as team supervisor), 3-7 May 2011, Shahid Beheshti University, Tehran, Iran.
- (3) 36th Annual Iranian Mathematics Conference, September 10-13, 2005, Yazd University, Yazd, Iran.
- (4) Second Mathematics Workshop (as instructor), October 28, 2004, Farzaneghan Exceptional Talent Center, Zanjan, Iran.
- (5) The First Computer and E-Learn Seminar, April 29-30, 2004, Shahid Beheshti Exceptional Talent Center, Zanjan, Iran.
- (6) 34th Annual Iranian Mathematics Conference, August 30-September 2, 2003, Shahrood University of Technology, Shahrood, Iran.
- (7) The First Mathematics Congress of Zanjan's Exceptional Talent Centers (as referee), July 15-16, 2002, Shahid Beheshti Exceptional Talent Center, Zanjan, Iran.

Memberships:

- (1) Iranian Mathematical Society: permanent member.
- (2) National Institute of Iranian Elites (bonyad-e melli-e nokhbegan).
- (3) American Mathematical Society: 2004 - present.
- (4) Mathematical Association of America: 2005 - 2007.
- (5) Research Group in Mathematical Inequalities and Applications: 2003 - present.
- (6) Working Group on Generalized Convexity: 2007 - present.

Student Supervision, Teaching, SpeechesMaster students supervised:

15. Fatemeh Ayareh, *On the distribution of sequences involving Euler function and sum of divisors function*, September 2017.
14. Mohammad-Sadegh Ghaneei Bafghi, *Completely monotonic functions and its applications in number theory* (Co-supervisor: Prof. Ali Morassaei), September 2017.
13. Narges Dousti, *On the difference of the number-theoretic omega functions*, September 2017.
12. Masoud Mohammadi, *On the sequences involving prime numbers*, September 2017.
11. Hamed Zanganeh, *Studying of asymptotic growth of the least primitive root of a prime numbers*, January 2017.
10. Mahin Ahmadi, *Studying the primes counting function*, September 2016.

9. Saeed Beirami, *Series and identities involving harmonic numbers*, September 2016.
8. Vahid Rahmani Soltaniyeh, *On the GCD sums*, September 2015.
7. Mostafa Najafi, *Studying an inequality of Ramanujan concerning the prime counting function and some of its generalizations*, September 2015.
6. Zahra Hassanloo, *Sum of the fractional part and some generalizations of the Euler's constant*, September 2015.
5. Hassan Hassani Reisani, *Studying imaginary part of the non-trivial zeros of the Riemann zeta function*, September 2015.
4. Najmeh Dehghanpour, *On the ratio of the arithmetic and geometric means of the prime numbers*, September 2014.
3. Mohammad Ghorbani, *Average order of the Omega functions*, September 2014.
2. Nahid Nasser, *Various inequalities and approximations for the Euler Gamma function and some related functions*, October 2012.
1. Jamal Māleki, *Zero free regions for the Riemann zeta function*, September 2012.

Speeches:

- (1) The Riemann Hypothesis, University of Zanjan, Zanjan, 2016.
- (2) Mathematical works of Fermat, Zanjan Mathematics House, Zanjan, 2014.
- (3) Rational and Irrational Numbers, Zanjan Mathematics House, Zanjan, 2013.
- (4) Prime Numbers (university version), University of Zanjan, Zanjan, 2013.
- (5) Prime Numbers (high school version), Introduced 2 times in Shahid Beheshti Exceptional Talent Centre and Farzanegan Exceptional Talent Centre, Zanjan, 2013.
- (6) About the number π , Introduced 2 times in Zanjan Mathematics House and Roozbeh High School of Zanjan, Zanjan, 2013.
- (7) Number e in high school mathematical courses, Zanjan Mathematics House, Zanjan, 2012.
- (8) How we can do mathematical research in high school?, Minister of Education (Zanjan Office), Zanjan, 2011.
- (9) What is the probability that two random integers are coprime?, Zanjan Mathematics House, Zanjan, 2011.
- (10) On the Distribution of some Number Theoretic Sequences, Ferdowsi University of Mashhad, Mashhad, 2011.
- (11) Uniform Distribution Modulo 1 of Arithmetic Functions, IASBS, Zanjan, 2010.
- (12) Distribution of Primes, IASBS, Zanjan, 2009.
- (13) Primes in Arithmetic Progressions, IMB, Talence – Bordeaux, 2009.
- (14) Distribution of the Arithmetic Functions, IASBS, Zanjan, 2008.
- (15) Inequalities Involving Prime Numbers, IMB, Talence – Bordeaux, 2007.

- (16) What is L-Summing Method? IASBS, Zanjan, 2007.
- (17) Distribution of Prime Numbers in Arithmetic Progressions, IASBS, Zanjan, 2007.
- (18) Primes in Arithmetic Progressions, IASBS, Zanjan, 2007.
- (19) About $n!$, IASBS, Zanjan, 2006.
- (20) Wilson's Theorem for Finite Fields, Open University of Zanjan, 2006.
- (21) Wilson's Theorem for Finite Fields, IASBS, Zanjan, 2006.
- (22) Mathematical Dexterity, Open University of Zanjan, 2006.
- (23) Unrestricted Partition Function, IASBS, Zanjan, 2004.
- (24) Counting and Computing by e , IASBS, Zanjan, 2004.
- (25) Inequalities Involving $v_p(n!)$ and Study of the Equation $v_p(n!) = k$, IASBS, Zanjan, 2004.
- (26) About the Riemann Hypothesis, IASBS, Zanjan, 2004.
- (27) Elliptic Functions, IASBS, Zanjan, 2004.
- (28) Discrete Logarithm Problem, IASBS, Zanjan, 2004.
- (29) What is the probability that two integers are coprime?, IASBS, Zanjan, 2003.
- (30) Multiplication Table Theorem, IASBS, Zanjan, 2003.
- (31) Riemann Zeta Function and Distribution of Primes, IASBS, Zanjan, 2003.
- (32) Reciprocal of the Primes, IASBS, Zanjan, 2002.
- (33) Number e and Graphs, IASBS, Zanjan, 2002.
- (34) Beautiful Mathematics, SRTTU, Tehran, 2000.
- (35) Rational and Irrational Numbers, SRTTU, Tehran, 1999.
- (36) Multiplication Table, IASBS³, Zanjan, 1999.
- (37) Mathematical Model of the Cassette Type, SRTTU, Tehran, 1999.
- (38) A Figure with Finite Area and Infinite Perimeter, SRTTU, Tehran, 1998.
- (39) Number e and Graphs, SRTTU⁴, Tehran, 1998.

Graduate Courses Taught:

- (1) Distribution Theory: University of Zanjan
Spring 2015, Fall-Winter 2016 (Chapters 8–22 Davenport's Multiplicative Number Theory).
- (2) Advanced Number Theory: University of Zanjan
Fall-Winter 2013 (Dirichlet's theorem for the primes in arithmetical progression, from De Koninck and Luca's Analytic Number Theory; a selection of topics in distribution of prime numbers and theory of the Riemann zeta function, from Davenport's Multiplicative Number Theory; elliptic functions, from Apostol's Modular Functions and Dirichlet Series in Number

³Institute for Advanced Studies in Basic Sciences.

⁴Sahid Rajaei Teacher Training University.

Theory; lattices, from Stewart and Tall's Algebraic Number Theory and Fermat's Last Theorem).

- (3) Analytic Number Theory: University of Zanjan
 Fall-Winter 2014, Spring 2014, Fall-Winter 2012 (Tenenbaum's Introduction to Analytic and Probabilistic Number Theory),
 Fall-Winter 2011 (Apostol's Introduction to Analytic Number Theory).

A Selection of Undergraduate Courses Taught:

- (1) Fundamental Number Theory: University of Zanjan (for Mathematics students), All semesters from 2011.
- (2) Calculus III: University of Zanjan (for Mathematics students), Fall-Winter 2011, and Spring 2012.
- (3) Ordinary Differential Equations: University of Zanjan (for Engineering students), Spring 2011.
- (4) Calculus II: University of Zanjan (for Engineering students), Spring 2011, Fall-Winter 2012.
- (5) Calculus II: University of Zanjan (for Chemistry students), Spring 2011.
- (6) Calculus I: University of Zanjan (for Chemistry students), Spring 2011.
- (7) Calculus III: Institute for Advanced Studies in Basic Sciences (for IT students), Spring 2010.
- (8) Discrete Mathematics: Institute for Advanced Studies in Basic Sciences (for IT students), Spring 2009.
- (9) History of the Mathematics: Free University of Zanjan, Summer 2006 & Summer 2007 (two summer semesters).
- (10) Fundamental Number Theory: Open University of Zanjan (for Mathematics students), Spring 2006 & Winter-Spring 2007 (two semesters).
- (11) Calculus III: Open University of Zanjan (for Mathematics students), Fall-Winter 2006.
- (12) Calculus II: Open University of Zanjan & Free University of Zanjan (for Mathematics, IT, Computer Science and Accountancy students), Fall 2005-Spring 2007 (all semesters).
- (13) Calculus I: Open University of Zanjan & Free University of Zanjan (for Mathematics, IT, Computer Science and Accountancy students), Fall 2005-Spring 2007 (all semesters).
- (14) Maple V Software - Elements and Elementary Programming: Open University of Zanjan, Summer 2005.
- (15) Number Theory Problem Solving: University of Zanjan, Spring, Fall-Winter 2004 (two semesters).
- (16) Fundamental Number Theory - Preparing to Olympiad: Shahid Beheshti Exceptional Talent Centre, Winter 2003.

- (17) Calculus Problem Solving: University of Zanjan, Fall-Winter 2003.
 (18) Elements of Maple V Software: Shahid Rajaei Teacher Training University, Fall-Winter 1999.

Persian Description of the Contents of CV

متولد اول مرداد سال ۱۳۵۸ هجری شمسی در زنجان می باشم. در آذر سال ۱۳۸۹ از رساله دکتری در شاخه نظریه تحلیلی اعداد دفاع کرده، و از آغاز بهمن همان سال تاکنون عضو هیات علمی گروه ریاضی دانشگاه زنجان بوده ام. آنچه که پیش رو دارید فرصتی از فعالیتهای علمی ام به زبان انگلیسی است، که شامل بندهای زیر است:

۱. اطلاعات شخصی و دانشگاهی: مشخصات شناسنامه ای، آدرس محل کار، سوابق تحصیلی، شاخه های که به آنها علاقه دارم، و جوایز اخذ شده.

۲. تالیفات ریاضی: پایان نامه ها، مقالات بین المللی و داخلی، و درس نامه ها.

۳. خدمات تخصصی ریاضی: عضویت در کمیته های تخصصی، سوابق داوری علمی، و سوابق مرور متنهای تخصصی ریاضی.

۴. شرکت در فعالیتهای جمعی ریاضی: گروه هم آبی های خارج و داخل، عضویت در مجامع علمی خارج و داخل، عضویت در هیات تحریریه نشریات.

۵. دانشجویانی که استاد راهنمایان بوده ام، سخنرانی های که ارائه نموده ام، و درسهایی که مدرسان بوده ام.
